Many racehorses are retired from racing before their 5th birthday but will live another twenty or more years. We hope to inspire people looking for a pleasure or sport horse to consider an Off the Track Thoroughbred! A Thoroughbred is willing, athletic, smart and well-schooled –ideal for a second career. Our mission is to raise awareness of the Thoroughbred's usefulness after racing by producing a quality competition to showcase the successful transition from racetrack to sport. Help us to provide a fun, economical, and rewarding horse show for those who own or train Thoroughbreds!
